PROFESSIONAL SUMMARY

Full Stack Web Developer with experience in the MERN stack (MongoDB, Express.js, React.js, Node.js), building responsive and scalable web applications. I have worked on REST APIs and implemented authentication using JWT. I'm comfortable with Git/GitHub, Agile workflows, and deploying projects on Vercel and Render. I have a good understanding of data structures, algorithms, and core software concepts. Looking for a software developer role where I can learn, grow, and build useful applications.

WORK EXPERIENCE

Frontend Developer Intern

Sep 2025 – Dec 2025

Upnyx — AIWorkSquad.com

Hyderabad, India

- Engineered 5+ reusable, responsive UI components using React.js and Tailwind CSS for an AI-powered social media automation platform, improving user engagement and content management efficiency.
- Delivered multiple social media post editor interfaces from requirement to production, adhering to product specifications and deployment timelines.
- Collaborated with cross-functional teams in an Agile environment, participating in code reviews and iterative product development cycles.

NOTABLE PROJECTS

JobDekho — Job Management API | Node.js, Express.js, MongoDB, JWT, REST API | GitHub

- Architected and developed a production-ready RESTful job management API using Node.js and Express.js, with MongoDB as the NoSQL database for scalable data storage.
- Implemented secure JWT-based authentication and role-based authorization, ensuring protected access to all API endpoints.
- Designed comprehensive CRUD endpoints for job postings with structured middleware, centralized error handling, and industry-standard API design patterns.

URL Shortener — Full Stack Web Application | Node.js, Express.js, MongoDB, JWT, Analytics | Live Demo

- Built and deployed a full-stack URL shortening service using the MERN stack with efficient link generation, redirection, and persistent data storage in MongoDB.
- Secured the application with JWT-based authentication, enabling personalized short URL management for registered users.
- Developed a real-time analytics dashboard to track link performance metrics including click counts, usage trends, and user engagement insights.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), Python, HTML5, CSS3, SQL
Frontend Development: React.js, Tailwind CSS, Responsive Web Design
Backend Development: Node.js, Express.js, REST API Design, Middleware Development
Databases: MongoDB (NoSQL), Oracle SQL
Authentication & Security: JWT (JSON Web Tokens), Role-Based Access Control (RBAC)
DevOps & Tools: Git, GitHub, Vercel, Render, Postman, VS Code
Libraries & Integrations: Multer, ImageKit, REST API Integration, npm Package Management
Concepts: Data Structures & Algorithms, Object-Oriented Programming (OOP), Agile Development, SDLC

EDUCATION

Bachelor of Technology in Computer Science and Engineering (B.Tech)

2022 – 2026

AAR Mahaveer Engineering College, Affiliated to JNTUH, Hyderabad

CGPA: 7.96/10

Intermediate — MPC (Mathematics, Physics, Chemistry)

2020 – 2022

Gayathri Junior College, Hyderabad

CGPA: 7.32/10

Secondary School Certificate (SSC)

Completed 2020

Pioneer Concept School, Hyderabad

Percentage: 97%
